## HTC 2015 校园招聘宣讲会

The **HTC Beijing Research Center** is seeking to accelerate the pace of scientific research and development to innovate computing algorithms and applications for creating novel data-intensive end-user experiences. The center reports directly to **Dr. Edward Chang (张智威), Head of HTC Research**. Dr. Chang was the Director of Google Research in China from 2006 to 2012. Before that, he was a full professor at University of California, Santa Barbara. Besides his current vice president position at HTC, he is also appointed as an adjunct professor at HKUST, Hong Kong.

### 宣讲嘉宾及主题

Dr. Chang, **Head of HTC Research**, will share with you about "**Big Data for Mobile Internet Revolution**". This talk presents both evolutionary and revolutionary opportunities of Mobile Internet, and some current exciting efforts at HTC.
